

## Helping People, Changing Lives

Independent Providers are people who make a difference. An independent provider is a self-employed person who directly provides services to people with developmental disabilities.

You must be at least 18 years old, have a high school diploma or GED and be able to read, write and understand English.

Once you've decided that this is what you want to do, it's a matter of gathering information, filling out required forms and applications, completing trainings and submitting all this information to the Ohio Department of DD for approval.

The process to becoming an Independent Provider will take a little time, but it will be worth it because you will be joining thousands of others who understand what it means to have a job you love.

The application fee is non-refundable. It must be paid with a credit card or electronic check.

## **What Happens after the Application is Submitted?**

---

Once DODD receives your completed application, application fee, and the background check, your application will be reviewed. Within 30 days, one of three things will happen:

1. Your application will be approved,
2. Your application will be denied, *or*
3. More information may be requested from you through a **Supplemental Application**.

If more information is requested, DODD will contact you via email to let you know and give you a timeline to submit what is being requested. If you fail to submit the needed information within the timeline, your application will expire, and you will have to start over again.

Once you are a certified provider, you will receive your certification letter via email.

Send the certification letter to your county board and let them know you are interested in providing services.
